

AC Portable Charger

With a built-in AC output for devices up to 85W

75Wh

20800mAh

Fast Charge & Discharge

Capacity: 3.6V/20800mAh

Battery Type: Lithium ion battery

Input: 5V/3A (Type C)

Output1: 5V/3A (Type C)

Output2: 5V/9V/12V 15W (QC3.0)

Output3: 5V/2.4A

Output4: 220V/85W (AC)

Dimension: 6.3*2.57*2.56 inch

Portable 85W AC Output Charging

Support most mobile devices and 220V home appliance up to 85W charged.

Keep your laptop and smartphone running on the go.

Cylinder Size with huge Capacity 20800mAh

6-7 times
for iPhone7

4.5 times
for Galaxy S7

1.2 times
for 12" MacBook

An Exclusive Power Station for Switch

Ultra capacity 20800mAh charge Switch fully at least 3 times. Making Switch will be no shortage of power anymore.

20800 mAh

3 times for Switch

Detail Description

Cylindrical Design:
portability and space saving

Input: Type C port
Output: Type C, QC3.0, USB

Digital display:
accurate and precise

220V/85W AC output

the fan's ventilation:
heat release function

9 Layers of Circuit Protection & High Efficiency

Chip solution improve charging conversion rate and stabilize discharging voltage with advanced resistance capacitance sensors to optimize efficiency and durability.

Up to **93%**
conversion rate

Increased **10%**
power out efficiency

Automatic Detect IC

Wide compatible with smartphone and tablets like iPhone, Smasung, HTC, Huawei, iPad.
